Pro:Centric® Smart IPTV

Guest Device Pairing and Content Sharing, IP & RF Connectivity, Smart Apps.

SECOND SCREEN CONNECTIVITY / SHARING

SMARTSHARE

The LY760H is designed for "second screen" support and options includes Wi-Di™, Wi-Fi Direct™ and Smart Mirroring technologies, which are used to pair guests' mobile devices with the TV enabling them to share and view their content on the large HD screen.

REMOTE DIAGNOSIS

LG's IPTV's support enhanced diagnostics tools, enabling remote monitoring and fault analysis of the TVs and content delivery system via partner's application.

SMART CUSTOMIZATION

LG Pro:Centric® Smart offers SI's the ability to customize and optimize a property's TVs with interactive IP-based applications including HTML5, Java and Flash programs. With this expansion of control comes the ability to provide premium hotel services without the need for a separate set-top box. Additionally, enhanced connectivity and second-screen sharing are available to the guests with LG Smart TV technology.

CUSTOMIZABLE UI

HISTORY AUTO-DELETE

LG's commercial grade IPTV's automatically delete guests private logon credentials from embedded applications at power-off and also provides a further level of control for SI partners applications via the HCAP middleware layer to control deletion at guest check-out time.

PRE-LOADED APPLICATIONS

Embedded Applications include: Accuweather, Google Maps, Web Browser, Youtube, and vtuner (other applications may be added in the future, subject to licensing terms).

WEB BROWSER

Let your guests surf the internet just like at home with LG's optional easy-to-use 'Magic' Remote Control and embedded web-browser function.

Pro:Idiom®

GLOBAL LEADING DIGITAL RIGHTS MANAGEMENT SOLUTION

Pro:Idiom unlocks access to premium content to help assure rapid and broad deployment of HDTV and other high value digital content.

Pro:Idiom has been designed specifically for users of premium HDTV content from cable, satellite, or video on demand (VOD) services, and is intended to lower costs and reduce maintenance. This leading DRM system is embraced for its security solution, prevents illegal copying of copyrighted content.

REDUCED TOTAL COST OF OWNERSHIP

 Using LG's optional Pro:Centric server, you can remotely manage cloning and channel mapping for TVs in guest rooms without having to visit each room.

Express Script's auto configuration function makes installation quick and easy. EzManager guides the installer to set up the TV with simple steps without having to set up the menu manually, saving time and cost.

EFFECTIVELY MANAGE IN-ROOM TVs

 The USB Cloning feature allows you to simply copy the TV settings onto all TVs using a USB stick, a process that is fully automated to save time without having to set each TV one-by-one.

Pro:Centric APPLICATIONS PLATFORM

The LY760H is the latest in the line of Pro:Centric Televisions that provide a unique and dedicated hotel data broadcasting platform for hosting of LG's SIs (System Integrator's) interactive applications, enabling delivery for a wide range of custom applications tailored to both hotel management and guest needs.

The LY760H extends the choice of applications available to hoteliers through the introduction of HTML5 support in addition to the current Adobe Flash-Lite and Java support. The LY760H is also a full IPTV platform with built-in IP video decoding supporting both IP and RF connectivity. Leveraging the Pro:Centric IPTV platform has built-in STB (Set Top Box) client software in the TV, eliminating the need for additional STB hardware.

The LY760H supports embedded Wi-Fi for streaming content to the Television or back channel communications.

The LY760H platform includes support tools for the SIs to manage systems such as remote logging enabling monitoring of the TV's on the network by the head-end or cloud based server for maintenance and admin purposes. The instant ON/WARM mode feature allows the TV to communicate in a background mode while the TV is powered off and without disruption to the guest, providing the ability to deliver remote software updates from the head-end server and quick boot-up of embedded applications.

FREE INTERACTIVE ELECTRONIC PROGRAM GUIDE SERVICE FOR Pro:Centric® TVs!

PLAN HIGHLIGHTS

If your property has purchased or plans to purchase LG's Pro:Centric TVs, you qualify for a free Electronic Program Guide (EPG) that allows guests to easily navigate TV channels and programs - just like they do at home.

Participating properties must purchase and install a Pro:Centric server and supply an internet connection for daily program updates. Properties must also contract with an LG authorized partner to install and program the server to match your Free-to-Guest (FTG)

FREE program guide service runs until December 2017, replacing the current programming fee of \$1.50 per room per month.

Contact your LG sales representative or visit LG.com/us/commercial/display-discover/epg/index.jsp

LG'S FREE-TO-GUEST COST EFFECTIVE SOLUTION

When using LG televisions in Free-To-Guest hotel installations, the Pro:Centric server (PCS-200R) supports remote management of TV settings such as virtual channel mapping, cloning of installer menu settings, and other settings:

Save time and labor using LG's PCS200R remote management option which eliminates the necessity of visiting individual rooms to change television settings.

Hotel Costs For Free-To-Guest Channel Management

	Estimated Labor Costs	MSRP	Total	Savings over other brand
Other brand	\$20 (est.) x 2 times per year (to update channels) x 100 rooms x 5 years		\$20,000	
LG Pro:Idiom TV with Pro:Centric Server		\$2,499 (PCS-200R)	\$2,499	\$17,501

MSRP subject to change. Installation not included.

PCS-200R HEAD-END SYSTEM

Remote management functions are also supported via the Pro:Centric server. The Pro:Centric Application software can be remotely added at a later date to deliver the benefits of LG's Applications features (Weather, EPG, Billboards..)

LG is committed to improving product development, manufacturing and usage to meet the demand for products with environmentally friendlier features. Our televisions have technologies to reduce power consumption and in return increase cost savings per room.

SMART TECHNOLOGY

- **Intelligent Sensor** - Continually monitors room light conditions to automatically optimize the picture quality for a more enjoyable viewing experience, which can help save energy.
- **Dynamic Power Savings** - Using built-in algorithms, TV will automatically reduce the power consumption based on incoming video, while maximizing picture performance.
- **Static Power Savings** - Picture brightness level can be set at the preferred power consumption level to reduce power and increase energy savings.
- **CEC Compliant** - Meets the Appliance Efficiency Regulations of the California Energy Commission.
- **RoHS Compliant** - Meets directive on restriction of hazardous substances.
- **Energy Star 6.1 Qualified** - Meets current Environmental Protection Agency's television product specifications.
